FLEXIBLE SOLUTIONS

SILICONE HOSES FOR THE MARINE INDUSTRY

MARINE WET EXHAUST SILICONE HOSES VENA SIL 500 (ACCORDING TO SAE J2006)

SILICONE HOSES FOR THE MARINE INDUSTRY

MARINE WET EXHAUST SILICONE HOSES

VENA SIL 500

(ACCORDING TO ISO 13363 AND SAE J2006)

Venair, specialists in the production and design of flexible silicone hoses and special parts since 1986, offers the VENA SIL 500 range of silicone hoses, certified ISO 13363 and SAE J2006, for all kinds of marine engines:

CORRUGATED STRAIGHT JOINT VENA SIL 500

- All **VENA SIL 500** hoses are made from silicone and have several layers of polyester fibre to withstand the pressures to which they are subjected in this industry.
- Range of diameters: from 6mm (1/4") to 508mm (20")
- Range of temperatures: from -40°C to +180°C
- Wall thickness: according to diameter
- Pressure resistance: according to ISO 13363 and SAE J2006

STRAIGHT HOSE VENA SIL 500

90°, 45° OR 135° ELBOW VENA SIL 500

OTHER SILICONE HOSES

In addition to this range, Venair offers a large variety of hoses to meet any of its customers' needs:

- Highly flexible straight hose, including wire spiral between the silicone layers.
- Silicone hose with fabrics that can resist very high temperatures (Nomex or fibreglass).
- Silicone hose resistant to oils and hydrocarbon particles (SIL RA, Fluorosilicone).
- Compensators and special shapes, designed to customer specifications.
